RECENT WEB PROJECTS

Trip Calculator Application https://fathomless-fortress-87754.herokuapp.com/
REACT, REDUX, JAVASCRIPT, HTML, CSS
A responsive, single page application that estimates how much surplus money users will have each month. This calculation is based on the users monthly expenses and income. It's minimal interface allows for the input and deletion of recurring and non-recurring expenses after a user has registered.

Surplus Budget Application https://surplus-devon-lewis.herokuapp.com/
EXPRESS JS, HANDLEBARS, NODE JS, JAVASCRIPT, HTML, CSS
A responsive, single page application that estimates how much surplus money users will have each month. This calculation is based on the users monthly expenses and income. It's minimal interface allows for the input and deletion of recurring and non-recurring expenses after a user has registered.
